## Tundra Grey

Adını ve rengini Kuzey'in dondurucu Tundra ikliminden alan Tundra Grey, sizi buzlu denizlere, kar ve buz krallığının hüküm sürdüğü topraklara gizemli bir yolculuğa çıkarıyor. Aylarca kalkmayan kar ve kalın buz tabakalarının altında beliren donmuş topraklar... Ve onların üzerinde, bu zorlu şartlara başkaldıran Tundra çalları dalgalanıyor. Taş Zamanı olarak biz bu buzlu karışıma Tundra Grisi diyoruz.

## Tundra Grey

Tundra Grey, which gets its name and color from freezing Tundra Climate of North, takes you on a mysterious journey to icy waters and to the land where the snow and ice kingdom prevail. Frozen soils that appear under snow and thick ice sheets for months... And over them, the Tundra bushes that are rebelling against these tough conditions are fluctuating. As Taş Zamanı, we call this icy mixture as Tundra Grey.

## Italy Grey

Mermer, ilk olarak ihtişamlı mimari yapıları ve antik heykelleri aklı getiriyor. Soğuk duvarlar arkasında gölgelenen büyüleyici tarihi detaylar, en çok da Roma dönemine ait yapılar ve heykeller, bugün bile hala cazibesini koruyor. Mermerin sanata dönüştüğü İtalya'yı bu yüzden mermerin grisiyle ilişkilendiriyoruz. Güneyden kuzeye bir İtalya rüyasından en çok hatırlanan İtalyan Grisi Taş Zamanı'nın da ilham kaynağı oldu.

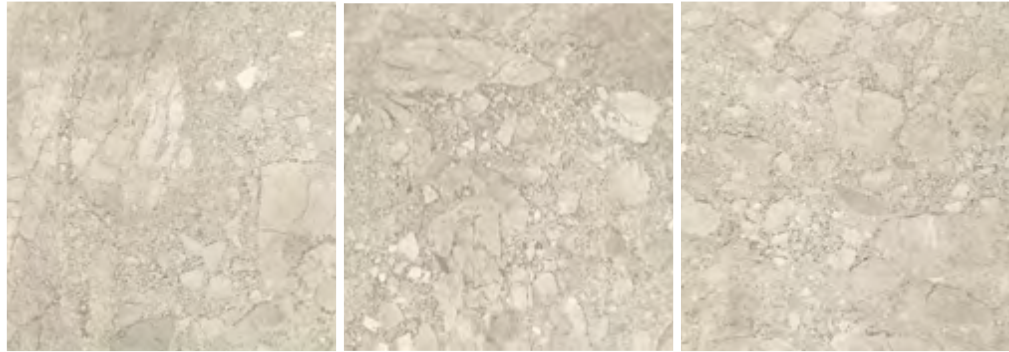

## Italy Grey

The marble firstly brings the magnificent architectural structures and antique sculptures to mind. The fascinating historical details shadowed behind the cold walls, most of the Roman period sculptures still retain their charm today. Therefore, we associate Italy where the marble converts the art to the grey of marble. Italy Grey, which is most remembered as Italian dream from South to North, provides the inspiration for Taş Zamanı.

# Rosa Nebula Application

## Rosa Nebula

Gün batarken gökyüzüne yayılan Nebula bulutları yağmur değil tatlı bir pembelik yağdırır bazen. Hayatın rengi birden değişir. Her yer Rosa pembesiyle kaplanır; duvarlara, yerlere, evler ve caddelere yansır bu renk. Yaşamın damarlarından pembelik akıyordur sanki... Taş Zamanı Rosa Nebula da bu tatlı akşam üstlerinin bir yansıması gibi... Onu seçmek hayatı ne kadar pembeleştirmek istediğinize bağlı...

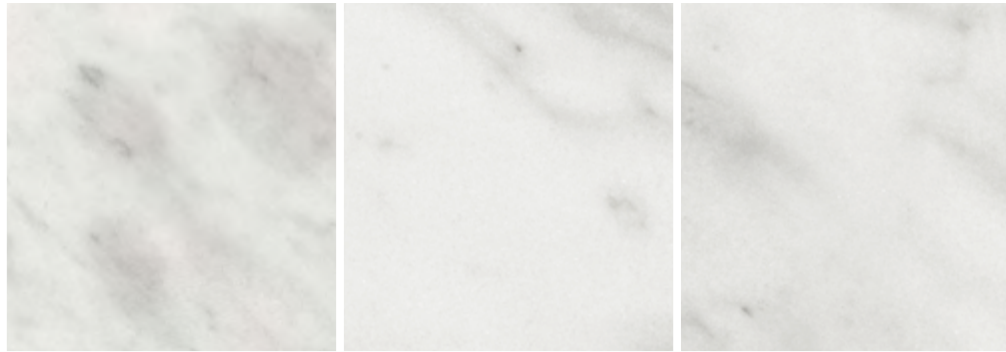

## Rosa Nebula

The clouds of Nebula spreading into the sky at sunset don't rain only but sometimes rain sweet pink. The color of life changes suddenly. Everywhere is covered with Nebula pink; this color reflect on walls, grounds, houses and streets. It seems like that the pinkness flows through the veins of life... Taş Zamanı Rosa Nebula is like a reflection of these sweet nightfalls. Choosing it depends on how much you want to make life pink...
